## Want to finish your task?

## Let's do the Pomodoro! Date Set your own timer (usually 25 mins). One cycle of your timer is equal to one pomodoro. Focus on your task without distractions within the time set. Work on your task until the timer rings. Check one circle once you complete one pomodoro (i.e. 25 minutes). After one pomodoro, take a short break (3-5 minutes), and resume afterwards. Every after four pomodoros, take a longer break (15-30 minutes). Keep on repeating the process until you finish your task.
